(678) 765-9330

elitepediatricconcierge.com

Dr. Basily provides focused pediatric case review and clinical context for attorneys and legal teams evaluating pediatric care, documentation, escalation, and systems questions.

**Board-certified pediatrician**

**Pediatric hospitalist | English & Arabic**

## Review Areas

- Medical record review, chronology preparation, and pediatric clinical context.
- Standard-of-care consultation for inpatient, newborn, urgent care, and emergency presentations.
- Assessment of documentation, escalation, handoffs, care coordination, and systems-process issues.
- Screening calls, focused written work, and expert-support consultation depending on case fit.

## Relevant Background

- Pediatric hospital medicine and newborn care.
- Urgent and emergency assessment of pediatric illness and injury.
- Clinical leadership, quality/safety review, pathway development, and documentation improvement.
- Board certification through the American Board of Pediatrics; Fellow of the American Academy of Pediatrics.

## First Email

- Case type and brief posture.
- Parties and entities for conflict review.
- Jurisdiction, deadlines, and requested turnaround.
- The pediatric question you need answered.
- Requested scope: call, record review, written work, or expert support.

## Engagement Process

- Conflict check and scope discussion.
- Written engagement terms and fee confirmation.
- Secure record-transfer process before records are sent.
- Focused review with clear pediatric reasoning and next-step recommendations.

## Records

Please do not send medical records or confidential case materials by ordinary email. Initial email should be limited to conflict-check and scheduling information.

## CV

A current CV is available upon request after conflict review and appropriate engagement terms.
